Friday 14th November

Work Experience Opportunity

As part of the year 13 enterprise lesson we have been developing a shop called Re-store that is designed to support our students to access work experience and employment in the local community. Following a very successful stint in the Craft Coop shop in Windsor we are now planning to take the shop to a Christmas market and there are work experience opportunities for students.

I would like to invite students who are interested to help at the market on Saturday 29th November in Peascod Street Windsor. Students would need to be able to make their own arrangement to come to the market, but would be supported by myself to work selling our products and talking to the general public. There will be shifts available depending on how much public interaction students are comfortable with. They are:

10.00am -12.30pm - Set up shift

Putting up the stand, setting up the stock and selling at a quieter time

12.30pm - 3pm - busy selling shift

Hopefully we will have lots of sales and students might need to talk to the customer

3pm - 5.30pm - Pack down shift

A quieter shift that will also involve packing the stall down and a stock check

Please can you discuss this work experience opportunity with your young people and encourage them to email me jenny@thegreenroomschool.com if they are interested.

Kind regards
