Dear Parents/Guardians,

We are delighted to inform you that as part of our Year 10 Futures Programme, we have arranged a visit to the MINI Plant in Oxford for our students on Tuesday 4th February 2025.

This exciting opportunity will provide our students with valuable insights into the diverse range of careers available within the automotive industry. The tour will showcase the manufacturing process of MINI vehicles, from initial design and engineering to final assembly. Students will have the chance to:

- **Observe various manufacturing processes:** Witnessing robotics, advanced technology, and skilled craftsmanship in action.
- **Learn about different career paths:** Explore potential roles in engineering, design, logistics, marketing, and more.
- **Gain valuable industry knowledge:** Understand the importance of teamwork, innovation, and quality control in a modern manufacturing environment.

We believe this visit will be an invaluable experience for our students, providing them with a better understanding of the world of work and inspiring them to consider future career pathways.

Students will leave after Period 1 to travel to Oxford in the school MiniBus. Pupils will be accompanied by two members of staff at all times. A packed lunch will be provided by the school, but students may bring their own money if they want to purchase something at the venue. We will be back at the knoll for normal pick up time.

'Wearing closed shoes is required for the tour. It's advisable to wear long-sleeved garments for the tour.' Due to safety reasons all participants of the tour will have to wear a hi-vis jacket and safety goggles in certain areas. This will be a non-negotiable requirement.

If you have any questions, please do not hesitate to contact the school office at 01753 866711 or email me at [claire@thegreenroomschool.com](mailto:claire@thegreenroomschool.com).

Kind regards

Claire Anderson  
Leader of Change
