16th October 2024

Dear parents/carers and pupils,

It's that time again - our first Curriculum Collapse of the year is here!

Twice annually The Green Room collapses our traditional timetable, sidelining subjects like English, Science and Maths for a few days and instead moving through a specific time and teaching our entire curriculum through that period of history.

Our Curriculum Collapses are a Green Room tradition, and provide all our pupils with a magnificent opportunity to explore subjects and topics that sit slightly outside our normal timetable.

From Monday 21st to Wednesday 23rd October we will be focussing on the 1990's and 2000's.

Pupils will explore events, people, places and themes from that time and will be doing it through a mixture of practical, discussion-based and interactive sessions.

All pupils have already selected their options, and personal timetables will be distributed in the next couple of days.

A particularly note-worthy aspect is the off-site Trips on Tuesday, both of which will be led by staff and planned thoroughly. We really hope pupils embrace this exciting element of the week and more details on this will follow.

We are really excited for what promises to be a brilliant few days and hope all our pupils are too. If you or your young people have any questions, suggestions or input regarding Curriculum Collapse then please feel free to contact me via email or the school office telephone number.

Kind regards,

Callum Flanagan

Head of School
