The first half of term is almost over and we were delighted to welcome back our existing pupils, and also lots of new pupils to both The Green Room and to The Chimney Farm Project this term. We were especially proud of the fantastic GCSE results our pupils had achieved in the summer. We had 100% pass rate in English, Maths and Science and they are a record breaking three times better than the average for alternative provisions

English 73.9% A-D
Maths 76.1% A-D
Science 66.6% A-D

GR6

The 6th Form have made a great start on our new Masters Edge program which focusses on the LORIC principles of Leadership, Organisation, Resilience, Initiative, and Communication. They have come up with some very inventive ideas for their

projects designed to have an impact on the wider community, for example one of our pupils has started a litter picking campaign with the aim of picking up 1 tonne of litter from Windsor, and has collected nearly 20kg already! There are also lot of exciting projects involving physical challenges, culinary enterprises, small business ideas and technical inventions. GR6 is proving to be a great place to hang out!

New Kitchen

We were lucky enough to have a new kitchen built over the summer, thanks to a generous £10,000 donation from SAP. It is a fantastic space which we're using for lessons, meetings, and of course lunch time. The pupils have started cooking lessons, and have been making their own lunch on a Thursday, the favourite so far is the spaghetti bolognese!

Chimney Farm

We have exciting news regarding the Chimney Farm Project. We are moving to a new premises, Old Park Farm in Kingsley where we will become an independent school, The Green Room School, Kingsley. This site offers us great potential for a much wider range of activities and education, and more in terms of hands

on skills like woodwork, metal work, technology, multi-media art, indoor and outdoor sports and performing arts. We will, or course, be taking our animal friends with us to join some others already there. We are also delighted to announce the appointment of a new Head of this school, Danielle Haxby, an education leader with a proven track record with keystage 4 and 5 in mainstream.
