Alternative Provision at

the GREENROOM project Kingsley

We believe that every young person's journey is unique. That's why The Green Room Project offers highly flexible, targeted support designed to complement a student's current provision.

GRPK allows students to stay connected to their home school while accessing specialised support and re-engaging with learning in a low-pressure, farm-based environment. At the heart of the provision is 'The Yard', a nurturing outdoor space at Old Park Farm where kindness and curiosity lead the way.

The Green Room Project Kingsley offers an unmissable and audacious education in the Hampshire countryside, across acres of farmland. Moving beyond the traditional classroom and into the natural world, we support students in mainstream settings as well as those currently outside standard education.

Guided by kindness, curiosity and change, we provide a transformative experience that complements mainstream schooling or offers a tailored alternative route. Our nature-led curriculum helps every student 'Start a Path' towards a love of learning and a deeper connection with the world around them.

Primary & Secondary Provision at

the GREENROOM project Kingsley

Garden Adventures and Food Stories

Cultural Creations & Mindful Reflections

Woodland Explorers & Outdoor Skills

Farm Explorers & Animal Friends

Mindful Nature Connections & Sensory Awareness

Literacy, Oracy & Numeracy

Primary Curriculum

We believe that the primary years are a vital time for sparking curiosity and building a foundation of emotional resilience. Our primary offer is designed for younger learners who thrive in a hands-on, outdoor environment. Through our five core themes, we provide a holistic curriculum that nurtures the whole child.

Our secondary provision re-engages students beyond the traditional classroom, bridging the gap between education and the real world. Through five core vocational and therapeutic themes, we help young people develop practical skills needed for adulthood, discover their strengths and “Start a Path”.

Horticulture and Farm Enterprise

Outdoor Bushcraft Skills

Animal Care & Husbandary

Reclamation and Sustainability

Mindful Nature Connections & Sensory Awareness

Literacy, Oracy & Numeracy

Secondary Curriculum
